TRIPATRA

At a glance

We are the Integrated Sustainable Engineering-Based Solutions Provider

Beyond the traditional definition of an engineering company, Tripatra stands as a leading integrated engineering-based solution provider since 1973. We are dedicated to empowering and supporting stakeholders both within and beyond the energy sector, ensuring their sustained success. Our solutions are meticulously designed to align with the specific requirements of clients across the entire energy value chain.

SAFETY COMMITMENT

We have been continuously improving our safety performance over the years through a solid commitment to implementing the Occupational Health and Safety management system. This ongoing effort has resulted in a 2024 Total Recordable Injury Rate (TRIR) and Lost Time Injury Rate (LTIR) that exceed our established targets.

Injury Rate	2024	Target
TRIR*	0.02	<0.15
LTIR**	0	<0.04

*Calculation is based on a rate of 200,000 labor hours (35 Hk)
**Calculation is based on a rate of 1,000,000 labor hours

OUR SOLUTIONS

We offer a wide range and tailored services to meet the demand. Furthermore, we maximize the value-added to our clients, from the early phase to the end of the asset life cycle, through **engineering & construction** and **asset solutions** services.

Advanced Technology Adoption

In response to future industry needs, TRIPATRA optimizes the use of cutting-edge technology that is designed to fulfill clients' efficiency and data accuracy needs and increase productivity and work effectiveness. Some of the technology we've been utilizing include: Digital Control Tower, Project Production Management, Live Project Management System (LPMS).

SECTORS WE SERVE

- Renewable Energy
Power & Industrial
- Oil & Gas
Petrochemical
Metal & Mineral

SUSTAINABILITY AT TRIPATRA

At TRIPATRA, we uphold the highest standards in terms of sustainability. That means we are highly committed to focusing on Environmental, Social, and Governance (ESG) practices. TRIPATRA is continuously ensuring sustainable business activities as part of our effort to support the Company's operational growth and as a valuable contribution to achieving the Sustainable Development Goals (SDGs) for making a better future.
